

## iCloud

**How much do you remember after listening to the audio?**

**Complete the following**

The two main speakers are \_\_\_\_\_ and \_\_\_\_\_.

Today, they are talking about the \_\_\_\_\_.

The cloud refers to the huge computers where companies store their users' \_\_\_\_\_, \_\_\_\_\_ and \_\_\_\_\_.

3 companies are mentioned here, they are \_\_\_\_\_, \_\_\_\_\_ and \_\_\_\_\_.

Fnn doesn't trust (faire confiance) the cloud, he is \_\_\_\_\_.

Sometimes pictures that were being kept hidden are made available to the public, they are \_\_\_\_\_.

This dialogue discusses the issue of \_\_\_\_\_ on the Internet.

A word or sequence of numbers that only the user knows and which is required for them to gain access to what is stored in their name is called a \_\_\_\_\_.

People who understand a lot about computers and use flaws – or little problems - in the software to gain access to a computer file, or network, illegally are called \_\_\_\_\_.

In 2013, \_\_\_\_\_ billion people across the whole world had mobile phones.

Many cloud companies now offer an added layer of security called 'two-factor \_\_\_\_\_'.

**Personally, do you store everything on the cloud?**

**Place the stress on the following words (entourez ou soulignez la syllabe accentuée)**

pictures

privacy

photograph

documents

protect

control

suspicious

network
