

## Rise of the machines

**How much do you remember after listening to the audio?**

**Complete the following**

The two speakers are called \_\_\_\_\_ and \_\_\_\_\_

The topic of their conversation is \_\_\_\_\_.

Dan is wearing a \_\_\_\_\_ today to protect himself.

The takeover of the world by artificial intelligence is referred to as the \_\_\_\_\_ of the machines.

The word robot was first used in a play in \_\_\_\_\_; the original meaning of robot is \_\_\_\_\_.

The CES technology show takes place in \_\_\_\_\_.

Hanson's ambition is to achieve an AI that can \_\_\_\_\_ humans at any intellectual task.

Robotics could take many of the jobs that we \_\_\_\_\_ ...

... or jobs where precision is very important, like \_\_\_\_\_.

Infallible means never \_\_\_\_\_.

Dan is worried about machines being more \_\_\_\_\_ than humans.

To surpass means to do or be \_\_\_\_\_.

\_\_\_\_\_ is a synonym for kind and helpful.

A being that is able to \_\_\_\_\_ for itself is sentient.

Isaac Asimov was the \_\_\_\_\_ science-fiction writer who wrote 3 laws to protect \_\_\_\_\_ from \_\_\_\_\_.

An ideal world : no more \_\_\_\_\_, no more \_\_\_\_\_, no more \_\_\_\_\_.

It's far-fetched means it's difficult to \_\_\_\_\_.

**Place the stress on the following words (entourez ou soulignez la syllabe accentuée)**

machines

infallible

protect

inevitable

ambition

far-fetched

vocabulary

intellectual

control

robot

benevolent

intelligent

universal

science fiction

program

technology

unlikely

opinion

surpass

sentient

robotics

**Can you think of more arguments in favour / against robots ?**

### Vocabulary from the document

What's the English for \_\_\_? How do you say \_\_\_ in English?

le sujet	the T	inquiet	W
tenue	G	bienveillant	B
casque	H	gentil	K
prise de pouvoir	T	serviable	H
travaux forcés	F L	conscient	S
réaliser, réussir	A	parfait	P
éviter	A	en sécurité	S
battre	B	se blesser	H
tâche	T	tiré par les cheveux	F F
la robotique	R	peu probable	U

## Rise of the machines

# TEACHER

The two speakers are called Dan and Neil

The topic of their conversation is AI.

Dan is wearing a helmet.

The takeover of the world by artificial intelligence is referred to as rise of the machines.

The word robot was first used in a play in 1920.

The original meaning of robot is forced labour.

The CES technology show takes place in Las Vegas.

Hanson's ambition is to achieve an AI that can beat humans at any intellectual task.

Robotics could take many of the jobs that we don't want to do ...

... or jobs where precision is very important, like air traffic control.

Infallible means never failing.

Dan is worried about machines being more intelligent than humans.

To surpass means to do or be better.

A synonym for kind and helpful is benevolent.

A being that is able to think for itself is sentient.

Isaac Asimov was the American science-fiction writer who wrote 3 laws to protect humans from robots.

An ideal world : no more war, no more murder, no more fighting.

It's far-fetched means it's difficult to believe.
